'Let's Get Wet Today!'TM

Career Day at Belton Middle School, Belton South Carolina

October 26th - We were delighted to be part of the Annual Career Day sponsored by Belton Middle School, Belton SC.

We arrived at Belton Middle School and were greeted by excited students that not only assisted us in getting our equipment to our assigned classroom but they also ensured that we didn't get lost. Without the assistance of the students it would have been a very long morning just toting all of the equipment.

We were very fortunate to have sessions with excited students that were willing to gamble and answer questions as well as ask questions. That was a plus as the 30 minute presentation time period was quickly over and we had

just scratched the surface.

The students got a very brief overview of the skills required as President and Chief Financial Officer as well as getting to touch and feel some of the SCUBA equipment. Students were given the opportunity to ask questions, aside from their cluster questions, and ask questions they did. One sessions' questions centered around sharks, a popular topic, while another was focused on jelly fish. All in all, the students were a delight to do a presentation for and we enjoyed their articulation of well developed questions. It is a direct reflection on the faculty and staff of Belton Middle School by the outstanding behavior, cordiality and positive

attitudes. We had a great time — Thank You Belton Middle School!

President & Chief Financial Officer Briefing Students of Her Responsibilities

Offerings of Precious Cargo Diving

It is so very hard to believe that winter is quickly sneaking up on us! We have been blessed with some great fall days, all except the leaves in the pool that is. Sadly, we have conducted our last pool session in our pool as the water is getting just a bit too nippy to conduct classes. Never fret though we do have a full schedule of classes for the fall

and winter months. For example we have the following classes in November:
Emergency First Response - November 11th & 12th; Digital Underwater Photography - November 19th & 20th with a trip schedule to the Florida Springs in Williston Florida from November 25th through the 27th. This trip is scheduled to

allow for the completion of the diving requirements for the issue of the Underwater Digital Photography Specialist certification. For more information please go to <http://www.preciouscargodiving.com/bundle.pdf> or call the shop at (864) 888-3500. This will be a fun trip!

End of Year Equipment Specials

Now is the time to purchase that equipment that you have been wanting! Precious Cargo Diving is reducing the price on a majority of our 2011 stock and these specials are listed on our website at <http://www.preciouscargodiving.com/ws.htm> while this isn't the norm at many dive shops it is for PCD as we are willing to pass on the savings that we are given! If you don't see a piece of equipment you need as a special please contact us and we will let you know when or if it will be on sale. We won't tell you the actual cost though. Also please be aware that all purchases must be made in person at the store, we do not

do internet sales or telephone orders. We keep our prices lower by keeping all sales restricted to the our shop. All purchases made through Precious Cargo Diving are backed by the manufacturers warranty as we are authorized dealers for all SCUBA equipment we stock.

If you are looking for that special piece of artwork that reflects the ocean and its inhabitants we have those too! They are all one of a kind oil paintings in frames ready for a wall so please come in a see William A Dillard Collections there are special prices for these paintings as well. An example of Bill's work. - Apex

Predator.

Follow Precious Cargo Diving on Facebook & Dive Buddy

We are getting lots of views on our Facebook page but we need more followers! No, I am not saying you are followers we all know that if you put three divers in the water with one divemaster he/she will have a tough time getting them to go in one direction! We use Facebook as a method of gauging interest in PCD offerings so please click the icon to 'Like Us' and then make your comments known as that is the only way we will make a better dive

shop... your input is welcome!

You can also log in to Dive Buddy.com and find us there, if you would like an invite to Dive Buddy just drop me an email and we will get you one right away. Dive Buddy is a great resource and free that allows divers to connect with divers get some dives planned in a location that you might not have a dive buddy. It also has great articles and pictures.

Special Thanks!

We have gotten many compliments on our newly revised logo and wanted to share with the world the power that made our logo pop! Mr. Aaron Kerr was that power, not only did he take our roughly sketched logo and make it come to life but he went way beyond our expectations and we appreciate his hard work!
